Permit to Move Live Plant Pests, Noxious Weeds, and Soil
Interstate Movement
Regulated by 7 CFR 330

This permit was generated electronically via the ePermits system

PERMITTEE NAME:	Jeff Baier	PERMIT NUMBER:	P526P-19-02714
ORGANIZATION:		APPLICATION NUMBER:	P526-190508-009
ADDRESS:	3153 Mt. Veeder Road Napa, CA 94558	FACILITY NUMBER:	N/A
MAILING ADDRESS:	3153 Mt. Veeder Road Napa, CA 94558	HAND CARRY:	Yes
PHONE:	707-224-4010	DATE ISSUED:	06/17/2019
FAX:		EXPIRES:	06/17/2022
DESTINATION:	3153 Mt. Veeder Road, Napa, CA 94558		
RELEASE:	No		

Under the conditions specified, this permit authorizes the following:

<u>Regulated Article</u>	<u>Life Stage(s)</u>	<u>Intended Use</u>	<u>Shipment Origins</u>	<u>Originally Collected</u>	<u>Culture Designation</u>
Hemileuca spp.	Adult, Egg, Larvae, Pupae	Research - Field	AZ, CO, ID, MT, NV, NM, OR, TX, UT, WA, WY	Originally Collected from Within the Continental U.S.	

PERMIT GUIDANCE

- 1) This permit does not authorize movement or release into the environment of genetically engineered organisms produced with the regulated organisms described in this permit. Importation, interstate movement, and environmental release of genetically engineered plant pests require a different permit issued under regulations at 7 CFR part 340. Any unauthorized interstate movement or environmental release, including accidental release, of a regulated GE organism would be a violation of those regulations. Additional guidance and contact information for APHIS Biotechnology Regulatory Services, can be found at: <https://www.aphis.usda.gov/aphis/ourfocus/biotechnology>.
- 2) If an animal pathogen is identified in your shipment, to ensure appropriate safeguarding, please refer to http://www.aphis.usda.gov/import_export/animals/animal_import/animal_imports_and_products.shtml
- 3) If a human pathogen is identified, please refer to the CDC Etiologic Agent Import Permit Program at <http://www.cdc.gov/od/eaipp/>
- 4) This permit does not fulfill the requirements of other federal or state regulatory authorities. Please contact the appropriate agencies, such as the U.S. Environmental Protection Agency, the U.S. Fish and

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to \$250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

Wildlife Service, the U.S. Food and Drug Administration, the Centers for Disease Control and Prevention, the APHIS Veterinary Services unit, the APHIS Biotechnology Regulatory Services, or your State's Department of Agriculture to ensure proper permitting.

5) If you are considering renewal of this permit, an application should be submitted at least 90 days prior to the expiration date of this permit to ensure continued coverage. Permits requiring containment facilities may take a longer period of time to process.

6) When the regulated material includes Domestic soil

You must abide by all local quarantines see: [http://www.aphis.usda.gov/planthealth/pests and diseases](http://www.aphis.usda.gov/planthealth/pests_and_diseases)

Of special concern for movement of soil from certain continental areas are: IMPORTED FIRE ANTS:

<http://www.aphis.usda.gov/plant-health/ifa>;

GOLDEN NEMATODES: <http://www.aphis.usda.gov/planthealth/gna>;

POTATO/PALE CYST NEMATODE: <http://www.aphis.usda.gov/planthealth/pcn>

; PHYTOPHTHORA RAMORUM (Sudden Oak Death): <http://www.aphis.usda.gov/plant-health/sod>

PERMIT CONDITIONS

USDA-APHIS issues this permit to Jeff Baier, 3153 Mt. Veeder Road, Napa, California. This permit authorizes the interstate movement of the listed regulated materials/organisms from the listed states to the above address.

1.
 - This permit is issued by the United States Department of Agriculture's Animal and Plant Health Inspection Service (APHIS). It conveys APHIS regulations and requirements for the material(s) listed on this permit. It does not reduce or eliminate your legal duty and responsibility to comply with all other applicable Federal and State regulatory requirements.
 - The permit number or a copy of the permit must accompany the shipment.
 - You must be an individual at least 18 years old, or legal entity such as partnership, corporation, association, or joint venture.
 - You are legally responsible for complying with all permit requirements and permit conditions.
 - If you violate any applicable laws associated with this permit, you may face substantial civil or criminal penalties. We may cancel all current permits and deny future permit applications.
 - Without prior notice and during reasonable hours, authorized Federal and State Regulators must be allowed to inspect the conditions associated with the regulated materials/organisms authorized under this permit.

Permit Number P526P-19-02714

THIS PERMIT HAS BEEN APPROVED ELECTRONICALLY BY THE FOLLOWING

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to \$250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

2. The permit holder must:

- maintain a valid PPQ526 permit so long as the regulated materials/organisms are alive or viable,
- not assign or transfer this permit to other persons without APHIS PPQ authorization,
- maintain an official permanent work assignment, residence, or affiliation at the address on this permit,
- notify the Pest Permit Staff as soon as possible of any change in the permit holder's work assignment, residence, or affiliation,
- notify the Pest Permit Staff of the receipt of unauthorized and/or misdirected shipments of regulated materials/organisms,
- adequately mitigate environmental impacts resulting from unauthorized release of regulated materials/organisms and notify the Pest Permit staff immediately if one occurs,
- notify the Pest Permit Staff if the facility is damaged/destroyed or if you wish to decommission the facility,
- destroy all regulated materials/organisms prior to departure from the organization unless other arrangements are confirmed by the Pest Permit Staff.

Notifications to the Pest Permit Staff must be made via 866-524-5421 or pest.permits@aphis.usda.gov within one business day of the event triggering a notification.

3. All persons working with the listed regulated materials/organisms must be informed of these permit conditions. Anyone working with these materials/organisms must agree to adhere to and sign/initial these conditions before beginning work. These signed conditions do not need to be submitted to USDA/APHIS but must be readily accessible and made available to Federal and State regulators upon request.

Note: these conditions may be copied and stored electronically for electronic signature and initialing provided that the permit number, authorized materials/organisms and life stages, release locations if applicable, and authorization statement all appear on the document with the permit number. Signing these conditions only indicates that the person working under this permit has read

Permit Number P526P-19-02714	
<p>THIS PERMIT HAS BEEN APPROVED ELECTRONICALLY BY THE FOLLOWING PPQ HEADQUARTER OFFICIAL VIA EPERMITS.</p> <div style="text-align: center; margin-top: 20px;">  Wayne Wehling </div>	<p>DATE</p> <div style="text-align: center; margin-top: 20px;"> 06/17/2019 </div>

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to \$250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

- them; the permit holder is the sole responsible party under this permit.
4. **REARING REGULATED ORGANISMS** All lifestages of regulated Lepidoptera (collected specimens) must be maintained in escape-proof caging (e.g. aquaria, jars, etc.) at all times. The caging must be appropriate for the lifestage under consideration. For example, cages constructed of window screen are not appropriate for ova or very small caterpillars. Many 1st instar caterpillars can crawl in and out through window screen.
 5. **LIVE FIELD COLLECTED SPECIMENS** All live field collected organisms that you retain must be returned to the Napa, California address and maintained in escape-proof cages indoors at all times. Field collected females or females produced from the field collected livestock can be caged and used to pheromone bait for males. Such specimens must be transported as noted above. Specimens and plant waste that needs to be disposed of while traveling must be bagged and disposed per local waste removal practices.
 6. The organisms are to be shipped in sturdy, escape-proof containers. All lifestages must be packed to prevent escape under all circumstances. While traveling all lifestages must be held in fully closed cages that are sufficiently strong to remain intact in the event of a vehicle accident. When using the females to attract males the females must be continuously held in a secure cage that cannot come open through dropping or minor misuse. All specimens must be accounted for following field work. You must keep a written inventory of live species.
 7. This permit is not valid for release into the environment. However, field caging of live adult specimens for pheromone calling is authorized. Cages placed in the field must not be unattended for more than a 4 hours.
 8. All *Hemileuca* specimens transported to California and returning to Napa, California can originate from the states listed.
 9. **REPORTING REQUIREMENTS** Transport and collection records for *Hemileuca* spp. moved under this permit must be made available upon request from a PPQ Officer or the Pest Permit Branch, Unit 133, 4700 River Rd., Riverdale, MD 20737 or pest.permits@APHIS.USDA.gov, attention Wehling
 10. No more than 300 pupae and adult specimens of one species can be transported into California.
 11. All specimens must be returned to the Napa, California address unless disposed of as per waste management.
 12. **WASTE DISPOSAL** All waste materials generated from the emergence and maintenance of these cultures must be disposed of properly. Proper disposal of dead pupae, malformed adults, and waste fluids from emergence or dead caterpillars will address disease concerns and unintentional release of specimens. All waste materials must be bagged and a half cup of chlorine bleach must be mixed into each bag prior to disposal through local refuse collection. All plant materials exposed to these moths must be carefully examined for ova or larvae, prior to disposal. All plant waste exposed to the moths must be bagged and a half cup of chlorine bleach must be mixed into each bag prior to disposal through local refuse collection.
